Secure Project

Financial Support to European mSMEs for CRA Compliance

Andrea Margheri

Capo Divisione Progetti Industriali e Tecnologici, ACN

Con il patrocinio di:

Ministero delle Imprese
e del Made in Italy

Sotto l'alto patrocinio
del Parlamento europeo

Finanziato
dall'Unione europea
NextGenerationEU

Hosted by:

Cyber Resilience Act (CRA)

Essential **cybersecurity requirements** for the **design and development of products with digital elements** (hardware and software) as well as obligations for all **economic operators** in the value chain.

Figure 1: **Number of CVE (Common Vulnerabilities and Exposures) per month**

Political agreement in December 2023
Regulation not yet adopted.

SMEs in the Scope of CRA

Manufacturers of Products with Digital Components

e.g. manufacturing of electronic component, computer and peripheral equipment, communications equipment and consumer electronics

Providers of Tools and Solutions for CRA Compliance

e.g. IT consulting, cybersecurity services, compliance software solutions, data protection and privacy services, training and educational services.

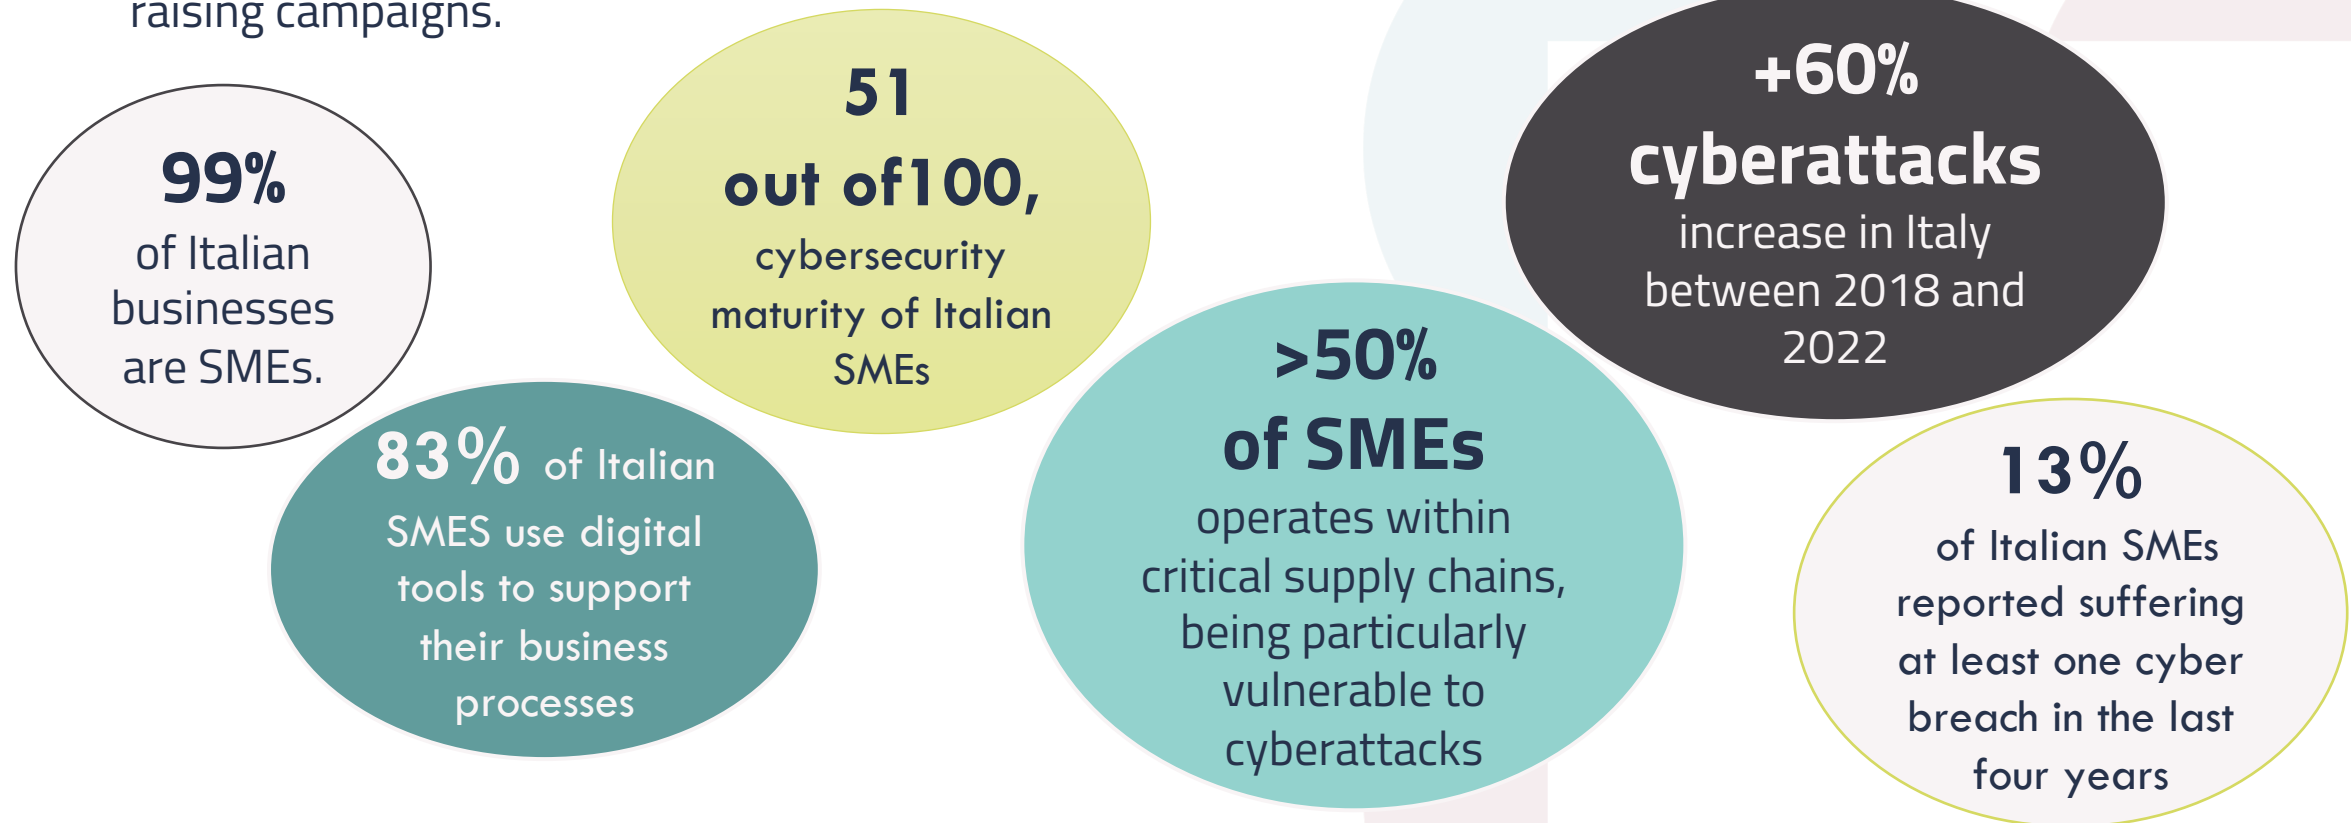

Other Well-Justified Categories in Line with CRA

e.g. technology distribution and importation, open-source software development, regulatory advisory services, cybersecurity standardisation bodies, digital infrastructure services

Key information about cybersecurity of Italian SMEs

- ACN recognizes the importance of protecting SMEs for strengthening supply chains.
- ACN supports SMEs by facilitating technological transfer through Digital Innovation Hubs, involving them in R&D activities, promoting the uptake of cybersecurity certification and through targeted awareness raising campaigns.

SECURE Project - Overview

Main Objectives

- **Managing Open Calls** by ensuring impartial evaluation and transparent monitoring of **Cascade Funding**
- Ensuring European SMEs' **awareness, accessibility and engagement** for cascade financing
- Establishing **CRA compliance Resources**; online **Platform** as main vehicle f. upskilling & capacity building
- Performing **Trainings and Upskilling** of stakeholders to achieve CRA compliance
- Promoting knowledge sharing and facilitating **CRA Compliance Use Cases**
- Contributing to **CRA Standardisation** efforts by engaging with European and International Bodies

 € 30.000

Maximum amount of co-funding (50% of the total project costs) to be granted to each SME

SECURE Stakeholders

The Role of NASK

Paweł K. Kostkiewicz
Director for Certification, NASK

Con il patrocinio di:

Ministero delle Imprese
e del Made in Italy

Sotto l'alto patrocinio
del Parlamento europeo

Finanziato
dall'Unione europea
NextGenerationEU

Hosted by:

The Role of NASK - PL

NASK will lead WP 1

- Task 1.1 (by M6) – Stakeholders mapping
- Task 1.2 (by M9) - Stakeholders needs & preferences analysis (including collection of platform requirements) – Led by Cyber 4.0
- Task 1.3 (throughout the project) - Continuous stakeholder engagement
➡ in close collaboration with ECCC, NCCs Network, EDIHs network

Contributor to all WPs

- Strongly involved in Task 6.4 on 'Contribution to standardisation effort' – Led by ACN – aimed at analysing existing standards which may contribute to the adoption of the CRA requirements for SMEs.
- NASK-PL to ensure the engagement of stakeholders to align with the standards identified through participation in standardisation activities and dissemination of outcomes.

Cyber Resilience Act Obligations

Defining SECURE Fundable Services

CRA Obligations

Cybersecurity is taken into account in **planning, design, development, production, delivery and maintenance phase**

All cybersecurity risks are **assessed and documented**

Security updates to be made available to users for the time the product is expected to be in use

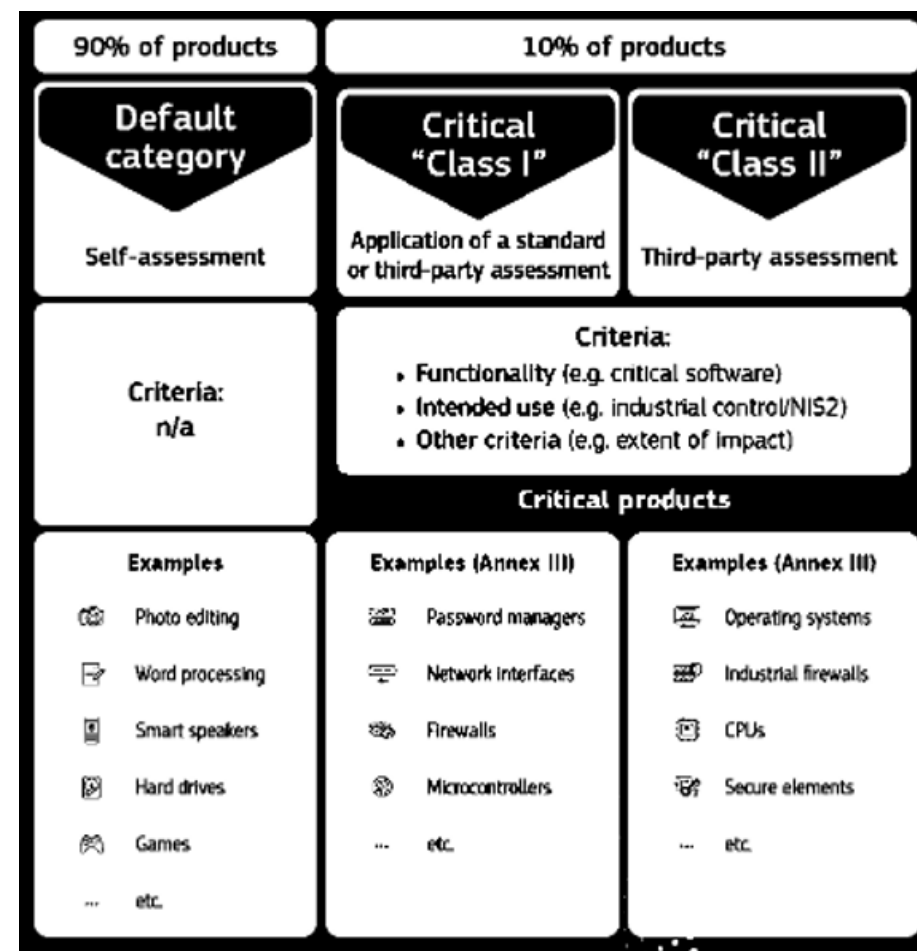

Ensure that product's vulnerabilities are handled effectively for the duration of the **support period (5 years)**

Clear and **understandable instructions** for the use of products with digital elements

Report actively exploited **vulnerabilities and incidents**

CRA stakeholders

Economic Operators

- MANUFACTURERS
- Software developers
- Importers & Distributors
- Resellers

Economic Operators (~production)

Third Parties

Cybersecurity service providers

MSME Supportive organisations

MSME Associations

ECCC & NCCs

Standardisation bodies

Conformity assessment bodies

EDIH Network

Supportive projects

- Economic Operators (~production)
- Cybersecurity service providers
- MSME Associations
- MSME Supportive organisations
- ECCC & NCCs

Project Timeline Draft

3 CALLS PROGRAM

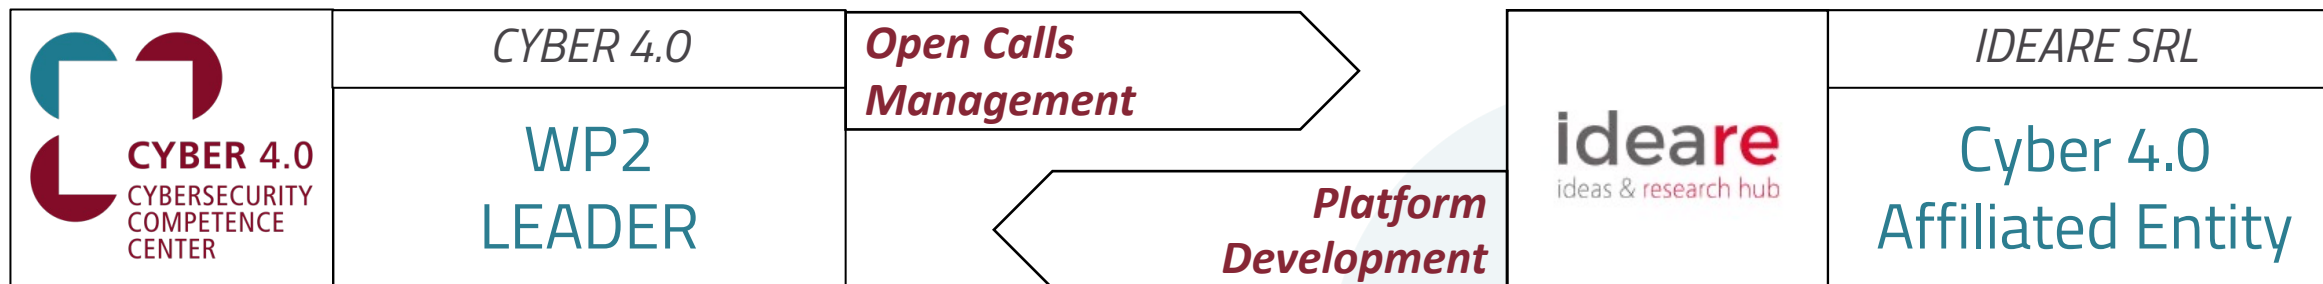

First Call:
From November 2025

Second Call:
From April 2026

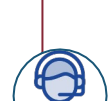

Third Call:
From November 2026

The Role of Cyber 4.0 and WP2

Open Call & Cascade Funding Management & Platform

WP2 OBJECTIVES

-  Definition of **processes functionalities** and roles to handle FSTP;
-  **Provide NCCs with a platform** to manage pre-submissions and check requirements
-  **Provide SMEs with a friendly and secure tool** to send submissions and to monitor the status of applications for funding;
-  **Provide to internal and external operators a platform** to examine and rank submissions, and to monitor outcomes;
-  **Management of Open Calls** through the platform for an effective FSTP.

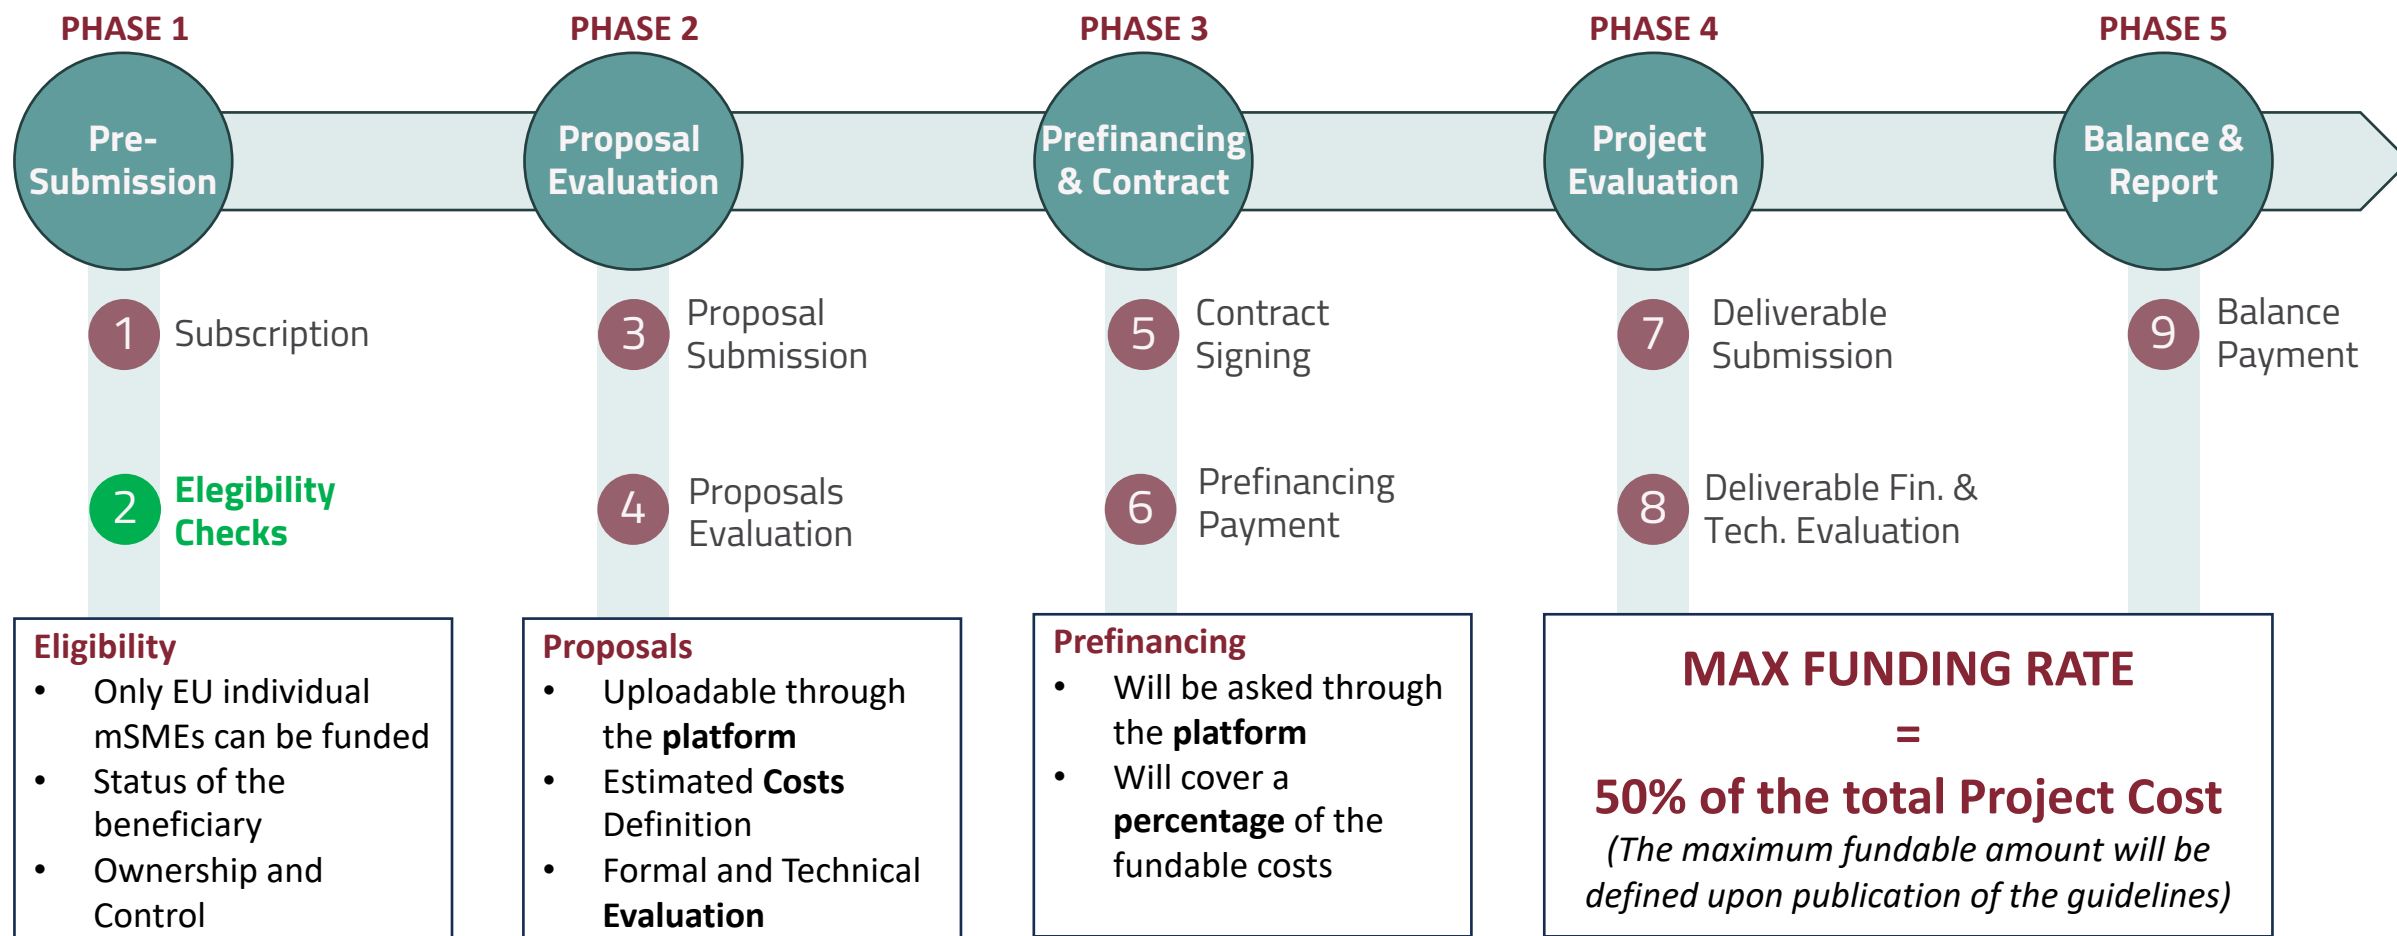

THE OPEN-CALLS PLATFORM

Designed for:

- Applicant Companies -
- NCCs -
- Consortium Members -
- Technical Evaluators -
- Financial Evaluators -
